

fresh flowers

In my never-ending effort to get fresh flowers into the homes of the Barossa, especially your home - we have a special offer for the month of February and March we are offering 10% discount off cut flowers (only cut flowers - not giftware or arrangements.) Pineapple lilies have just started for the season and cope well in the heat. We have lots of interesting tropical foliage and stunning flowers, including: Singapore orchids, Heliconia, Oriental, Asiatic and Calla lilies. These are all Summer varieties and will add colour and vibrancy into any home - please treat yourself! (or some one you love) Our latest discovery is a flower called green trick. These last for 2 weeks, give them a try, they're really interesting - just mention that you are a mailing list member to receive your discount.
